Factors included overall PCB quality, corrective action, and conflict resolution.

Engineering

ranked Amitron "Among the Best" or "Better than Most"

Factors included knowledge level, conflict resolution, responsiveness, and politeness.

Testimonials

"Great team. No problems. Never shopped for another supplier."

"Amitron identified errors for my board during the quoting process, saving us time and \$\$\$."

"Amitron has been building our boards for several years now. We tried a cheaper company but immediately came back due to poor quality. Amitron resolves issues quickly and produces an excellent product."

"Among the best at heavy copper boards and good thermal laminates knowledge."

"Amitron is one of the best PCB houses to work with. I recommend you to others with issues with their own PCB supplier."

AMITRON

At Amitron, we strive for excellence, which is why we put so much emphasis on ranking "Among the Best" or "Better than Most" in everything we do.

We thank our customers that took the time to provide honest feedback about their experience with various circuit board manufacturers. We promise to only get better.
